Journal of Soil and Water Conservation
Index to Volume 47

Abrol, I.P. See Sngh, Gurmel

Agencies
and conservation districts, 21
and inter-agency cooperation, 122
assistance: perceptions of farmers, 260
building credibility, 158
generating trust and credibility, 236
making USDA more accountable, 304
the role of conservation districts, 152
translating science into policy, 441

Agricultural Land Retention
planning for the 21st century, 32

Agriculture
and nonpoint-source pollution control, 42
and the role of indigenous soil knowledge, 298
and water quality, 220
farmer to farmer education programs, 127
its effect on the environment, 206
its effect on the Everglades, 207
managing for water table control, 71
using expert systems and process models, 234

Agriculture, Sustainable
a scientific survey, 100
farmers adopting production technology, 14
soil as renewable resource, 156

Akohoue, S. See Banuelos, G.S.
Anderson, Molly D. (and William Lockeretz): Sustainable agriculture research in the ideal and in the field, 100
Arner, Dale H. (and Jeanne Jones and Chris Bucciantini): Carolina clover: High prospect for the Conservation Reserve Program, 292

Babu, Ram. See Singh, Gurmel
Baltezore, James F. See Leitch, Jay A.
Banuelos, G.S. (and R. Mead, L. Wu, P. Beuselinck, and S. Akohoue): Differential selenium accumulation among forage plant species grown in soils amended with selenium-enriched plant tissue, 338
Barbarika, Alex Jr. (and Jim Langley): Budgetary and farm-sector impacts of the 1985-1990 Conservation Reserve Program, 264
Barlow, C. Paul: Personal Enrichment: Generating organizational trust and credibility, 236
Baumer, G.M. See Hamlett, J.M.
Benson, V.W. (and B.L. Harris, C.W. Richardson, C.A. Jones, and J.R. Williams): Commentary: Using expert systems and process models to enhance U.S. agriculture, 234
Benson, V.W. (and K.N Potter, H.C. Bogusch, D. Goss, and J.R. Williams): Nitrogen leaching sensitivity to evapotranspiration and soil water storage estimates in EPIC, 334
Beuselinck, P. See Banuelos, G.S.
Bhusan, L.S. See Singh, Gurmel
Bilbro, J.D.: Sunflower dry matter production and plant structural relationships for wind erosion modeling, 194
Bocco, G. (and F. Garcia-Oliva): Researching gully erosion in Mexico, 365
Bogusch, H.C. See Benson, V.W.

Books Reviewed
Farming in Nature's Image: An Ecological Approach to Agriculture (1992): Judith D. Soule and Jon K. Piper, 254
Land Stewardship in the Next Era of Conservation (1991):V. Alaric Sample, 176
Soil Conservation in Wisconsin: Birth to Rebirth (1992): Leonard C. Johnson, 254
The River of the Mother of God and Other Essays by Aldo Leopold (1991): Susan L. Flader and J. Baird Callicott, 94
The State of Canada's Environment (1991): Government of Canada, 396
Rural Environmental Planning for Sustainable Communities (1991): Frederic O. Sargent, Paul Lusk, Jose A. Rivera, Maria Varela.
Water Resources Management: In Search of an Environmental Ethic (1991): David Lewis Feldman, 322

Bosch, Darrell J. (and Krishna B. Napit): Economics of transporting poultry litter to achieve more effective use as fertilizer, 342
Boyd, Dale A.: Local resource planning for water quality improvement, 136
Brown, George E. Jr.: Viewpoint: Securing the fate of Landsat, 126
Bucciantini, Chris. See Arner, Dale H.
Buckley, David J.A. See Hendrix, William G.
Budd, William W.: What capacity the land?, 28
Busscher, W.J. (and E.J. Sadler and F.S. Wright): Soil and crop management aspects of water table control practices, 71

Camp, C.R. See Shirmohammadi, Adel
Campbell, C.A. (and B.G. McConkey, R.P. Zentner, F. Selles, and F.B. Dyck): Benefits of wheat stubble strips for conserving snow in southwestern Saskatchewan, 112
Caplan, Jim: Personal Enrichment: Fostering credibility to build public support, 158
Chase, Craig. See Hayenga, Marvin
Clawson, W. James. See Forero, Larry.

Climate
the global environment, 39

Cone, David. See Wichelns, Dennis

Conservation
and biotechnology, 17
and conservation districts, 21
and conserving snow, 112
and education team building, 294
and U.S. water policy, 75
and water table control, 71
and wildlife management, 289
farmers adopting production technology, 14
leaving erodible land out of production, 191
public values on private land, 360
sustainable practice in Zimbabwe, 370
the global environment, 39
the role of conservation districts, 152
the role of values, 356

Conservation Compliance
and nonpoint-source pollution control, 42
farmers adopting production technology, 14

Conservation Reserve Program
and using Carolina clover, 292
budgetary and farm-sector impacts, 264
enhancing the value of CRP acres, 134

Conservation Tillage
comparing costs of conventional tillage, 328
erosive effects of large storms, 257
Indiana's PEP$ program, 131
state seedbed production of soybeans, 187

Cooper, Charles M. (and William M. Lipe): Water quality and agri culture: Mississippi experiences, 220

Cropping Practices
and wheat stubble strips, 112
crop rotations and the 1990 farm bill, 145

grasses for winter grazing, 224
herbicide-tolerant corn and tomatoes, 411
state seedbed production of soybeans, 187

Dabney, Seth. See Kemper, Doral
Day, R.L. See Hamlett, J.M.
Dean, D.M. (and M.E. Foran): The effect of farm liquid waste application on tile drainage, 368

Departments
Books, etc., 94, 176, 254, 322, 396, 470
Classified ads, 92, 174, 251, 320, 394, 467

Pen points, 4, 124, 204, 280, 352, 433
Personal enrichment, 78, 158, 236, 306, 451
SWCS view, 3, 122, 202, 278, 350, 430
Upcoming, 93, 175, 252, 321, 395, 473

Diebel, Penelope L. See Williams, Jeffrey R.
Digerness, Jerry: Viewpoint: Challenges, opportunities for partners, 282
Dillworth, Mary E. See Jakubauskas, Mark E.
Dominick, Darrel. See Kemper, Doral
Dregne, H.E.: Erosion and soil productivity in Asia, 8
Dyck, F.B. See Campbell, C.A.

Eaheart, David: Wildlife and soil conservation, 289

Economics
and carrying capacity, 28
assessing the value of conservation tillage, 131
comparing costs of tillage systems, 328
cost-sharing: perceptions of farmers, 260
leaving erodible land out of production, 191
tiered pricing for irrigation water, 139
using poultry litter as fertilizer, 342

Education
a land management computer model, 226
farmer to farmer programs, 127
role of indigenous soil knowledge, 298
statistics for building a team, 294
teamwork approach to conservation education, 231

Elfring, Chris: Translating science into policy, 441
Elliott, L. F. (and R. E. Wildung): What biotechnology means for soil and water conservation, 17
Elmore, C.D. (and R.A. Wesley, and L.G. Heatherly): Stale seedbed production of soybeans with a wheat cover crop, 187
Enshayan, Kamyar (and Deb Stinner and Ben Stinner): Farmer to farmer, 127

Environment
agriculture's effect on, 206
the global environment, 39

Erosion
and grass terraces, 284
and size characteristics of sediment, 107
conservation tillage in large storms, 257
effect of on corn yields, 325
erosion and soil productivity in Asia, 8
erosion rates in India, 97
gully erosion in Mexico, 365
mesh-bag method for field assessment, 495
sustainable practice in Zimbabwe, 370

Escobar, D.E. See Ritchie, J.C.
Evans, R.O. (and J.E. Parsons, K.C. Stone, and W.B. Wells): Water table management on a watershed scale, 58
Everitt, J.H. See Ritchie, J.C.

Fertilizers
liquid waste on tile drainage, 368
using poultry litter, 342

Foran, M.E. See Dean, D.M.
Forero, Larry (and Lynn Huntsinger and W. James Clawson): Land use change in three San Francisco Bay Area counties: Implications for ranching on the urban fringe, 475

Forestry
community participation for watershed management, 499
forest soils, 268

Francis, D.D.: Control mechanisms to reduce fertilizer nitrogen movement into groundwater, 444
Friend, Joe A.: Commentary: Achieving soil sustainability, 156
Gannon, Eileen M.: Personal Enrichment: Self-imposed discrimination: Taking credit where it is due, 451
Gantzer, C.J. See Lindstrom, M.J.
Gantzer, C.J. See Thompson, A.C.
Garcia-Oliva, F. See Bocco, G.

Geographic Information Systems
ranking watersheds for pollution prevention, 399
selecting sites for waste disposal, 271
twenty years of Landsat program, 126

Getman, Mike. See Hawn, Ted
Gildea, Ray: Viewpoint: Gender equity session generates dialogue, 432
Giles, Jere. See Rikoon, J. Sanford
Gilliam, J.W. See Thomas, D.L.
Goss, D. See Benson, V.W.
Grissinger, E.H. See Ritchie, J.C.

Groundwater
and soil and crop management, 71
and U.S. water policy, 75
and water quality improvement, 65
and water table management, 47, 52, 58
local planning for water quality, 136
reducing fertilizer movement, 444

Haberern, John: Viewpoint: A soil health index, 6
Hamlett, J.M. (and D.A. Miller, R.L. Day, G.W. Petersen, G.M. Baumer, and J. Russo): Statewide GIS-based ranking of water sheds for agricultural pollution prevention, 399
Harbor, Jon. See Ross, Dan
Harmon, W.C. See Meyer, L.D.
Harris, B.L. See Benson, V.W.
Hatfield, Mark O.: Commentary: Needed: A comprehensive U.S. water policy, 75
Hawkins, D. E. See Stone, K.C.
Hawn, Ted (and Mike Getman): Enhancing CRP values, 134
Hayenga, Marvin (and Leland C. Thompson, Craig Chase, and Susan Kaaria): Economic and environmental implications of herbicide-tolerant corn and processing tomatoes, 411
Heatherly, L.G. See Elmore, C.D.
Hendrix, William G. (and David J.A. Buckley): Use of a geographic information system for selection of sites for land application of sewage waste, 271
Hill, Peter R. (and James E. Lake): PEP$: A dollar-and-cent approach to conservation tillage, 131
Hoban, Thomas J. IV: Strategies for building a conservation team, 294
Hoban, Thomas J. IV: Teamwork for conservation education, 231
Hodges, Donald G. (and Victoria N. Parmele, A.E. Luoff, and C.T. Smith Jr.): Use of forest soils information by New Hampshire foresters, 268
Holechek, Jerry L. (and Rex D. Pieper): Estimation of stocking rate on New Mexico rangelands, 116
Hsieh, Yuch Ping: A mesh-bag method for field assessment of soil erosion, 495
Hunt, P.G. See Thomas, D.L.
Huntsinger, Lynn. See Forero, Larry

Irrigation
and soil productivity, 405
tiered pricing plan for water conservation, 139

Jackson, T.J. See Ritchie, J.C.
Jacobs, Harvey M.: Planning the use of land for the 21st century, 32
Jakubauskas, Mark E. (and Jerry L. Whistler, Mary E. Dillworth, and Edward A. Martinko): Classifying remotely sensed data for use in an agricultural nonpoint-source pollution model, 179
Jones, A.J. See Lindstom, M.J.
Jones, C.A. See Benson, V.W.
Jones, Jeanne. See Arner, Dale H.

Kaaria, Susan. See Hayenga, Marvin
Keep, Tom. See Kemper, Doral
Kemper, Doral (and Seth Dabney, Larry Kramer, Darrel Dominick, and Tom Keep): Hedging against erosion, 284
Kozloff, Keith (and Yingmin Wang): Improving the cost-effective ness of retirning erodible land from crop production, 191
Kramer, Larry. See Kemper, Doral
Kumar, Anil: Development and conservation of water resources in Garhwal Himalaya, 449

Lake, James E. See Hill, Peter R.

Land Use Planning
and advisory boards, 5
and carrying capacity, 28
and ethics, 124
and property rights, 4
Golden State's preservation, 434
erosion rate map in India, 97
holistic approach, 35
local planning for water quality, 136
planning for the 21st century, 32
soil as renewable resource, 156
teaching with a microcomputer-based model, 226
using airborne lasers to study landscape features, 104
using GIS for site selection, 271

Landscape Architecture
holistic approach, 35

Langdale, G.W. (and W.C. Mills and A.W. Thomas): Use of conservation tillage to retard erosive effects of large storms, 257
Langley, Jim. See Barbarika, Alex Jr.

Laws
and freshwater wetlands, 76
and nonpoint-source pollution control, 42
and U.S. water policy, 75
and water table management, 47, 52, 58
crop rotations and the 1990 farm bill, 145
Everglades' SWIM plan, 210

Legg, D.E. See Stone, J.A.
Leitch, Jay A. (and James F. Baltezore): The status of North Dakota wetlands, 216

Lessley, Billy V. See Lichtenberg, Erik
Lichtenberg, Erik (and Billy V. Lessley): Water quality, cost-sharing, and technical assistance: Perceptions of Maryland farmers, 260
Lindsay, Greg (and Les Roberts and William Page): Maintenance of stormwater BMPs in four Maryland counties, 417
Lindsay, Greg (and Les Roberts and William Page J.): Inspection and maintenance of infiltration facilities, 481
Lindstrom, M.J. (and T.E. Schumacher, A.J. Jones, and C. Gantzer): Productivity index model comparison for selected soils in North Central U.S., 491
Line, D.E. See Meyer, L.D.
Lipe, William M. See Cooper, Charles M.
Lockeretz, William. See Anderson, Molly D.
Lugar, Senator Richard G.: Commentary: Making USDA more accountable, 304
Luloff, A.E. See Hodges, Donald G.

Majerus, Mark E.: High-stature grasses for winter grazing, 224
Martinko, Edward A. See Jakubauskas, Mark E.
McConkey, B.G. See Campbell, C.A.
McHarg, Ian L.: Green the Earth, heal the Earth, 39
Mead, R. See Banuelos, G.S.
Meyer, L.D. (and D.E. Line and W.C. Harmon): Size characteristics of sediment from agricultural soils, 107
Miller, D.A. See Hamlett, J.M.
Mills, W.C. See Langdale, G.W.

Models
a land management teaching tool, 226
an agricultural nonpoint-source pollution model, 179
budgetary and farm-sector impacts on CRP, 264
Crops—a WEPS submodel, 194
EPIC and nitrogen leaching, 334
expert systems and process models, 234
Indiana's PEP$ program for conservation tillage, 131
length-slope factors in RUSLE, 423

Mokma, D.L. (and M.A. Sietz): Effects of soil erosion on corn yields on Marlette soils in South-Central Michigan, 325
Moore, Ian D. (and John P. Wilson): Length-slope factors for the Revised Universal Soil Loss Equation: Simplified method of estimation, 423
Murphey, J.B. See Ritchie, J.C.
